Business Responsibility & Sustainability Report

Ministry of Corporate Affairs (MCA) revised National Voluntary Guidelines (NVG) 2011 on Social, Environmental and Economic Responsibilities of Business and aligned it with the national and international developments in sustainability space. This resulted in formulation of National Guidelines on Responsible Business Conduct (NGRBC).

At PROGREX, the NVG's Principles and Core elements are deeply integrated into practices and processes. During the reporting year, we assessed our position with the new NGRBC guidelines, a brief of which is given below:

- As early adopters of GRI (Global Reporting Initiative) and IR (Integrated Reporting), our policies and processes cover most elements of the NGRBC– which include identification and engagement with key stakeholders, materiality determination and adopting a prehensile approach that makes responsible business conduct an integral part of our strategy.

- Our policies like the Ecological Sustainability Policy, Health and Safety Policy, Human Right Policy, Code of Business Conduct, Supplier Code of Conduct, Data Privacy and CSR policy are implemented by specific operational guidelines and procedures under a cross functional charter which includes the Risk function, Legal and Compliance, Human Resources, Information Security, Operations, Procurement and Ombuds, among others. The tenets of Protect-Respect-Remedy are also integrated in implementation. We ensure appropriate due diligence of these programs through process and performance audits–both internal and external–through frameworks.

The details of governance by sub-committees of the Board are provided as part of our Corporate Governance Report of page no.16 this Annual Report.

- Communications– transparent disclosure is made through various public forums like CDP, Annual reporting, and through investor led frameworks. In addition, leadership actively evangelizes these values-based approaches through regular forums. We have robust internal processes to track performance of different elements in NGRBC at multiple levels of detail and coverage – many of which are covered in our public disclosures.
